The list above are the clear bags that we supply for many State facilities. In addition GTI supplies liners for some of our local schools and college. GTI also supplies black bags; if you need black or other colors just let us know. We also offer other sizes, shapes, styles and thickness for all your liner needs.

GTI liner sales support our mission to provide job training, supported employment, and day programs for disabled individuals in our community. We have many team members (individuals with disabilities) that are trained to work in our liner manufacturing area, all of them receiving a paycheck for their work. This work assists them with the opportunity to live a more independent life. A win for them and our community!

We would welcome a meeting to discuss your specific needs. For pricing and questions simply call or email Mike Moore at 231-922-4886 ext:1126 or email [mmoore@grandtraverseindustries.com](mailto:mmoore@grandtraverseindustries.com)
